**For Immediate Release**

**Tabs3 Software Launches Tabs3 Websites, Helping Law Firms Grow Their Practices with a Turnkey Solution at a Great Price**

**Lincoln, Neb. – August 9, 2023** – Software Technology, LLC, legal software leader and maker of Tabs3 Software, today announced the launch of Tabs3 Websites for law firms, a valuable add-on service.

A law firm's website is often the first point of contact for potential clients, and making a positive and professional impression is crucial. However, the challenges and costs of building and maintaining a sophisticated website can be daunting. Many law firms find themselves torn between the time-consuming nature of DIY systems and the budgetary constraints associated with hiring a local website agency.

Now Tabs3 Websites addresses those issues by creating sites exclusively for lawyers and law firms. Each site includes a standard set of features including a unique design customized for each firm, best-in-class security, starter page content for practice areas and services, and even built-in SEO optimization to help new clients find a firm quickly. "It's the perfect solution for attorneys or their staff working with limited time and a fixed budget," said Dan Berlin, President and CEO of Software Technology, LLC.

Key features include the following:

- Sleek and Modern Web Design
- Compelling Content
- SEO Optimization
- Client Convenience Tools
- Safe, Reliable, Compliant Hosting

"The development process is simple as well as cost-effective," Berlin added. "From design to content review and approvals, law firms can have a custom website in a matter of weeks, not months."

Tabs3 has a history of providing innovative and reliable software solutions for the legal industry along with outstanding U.S.-based support. The addition of simplified website development is a dynamic complement to the Tabs3 Software integrated suite of practice management software.
