Tabs3 Software Releases Version 2022 – Streamline and Improve Everyday Tasks

Lincoln, NE – January 24, 2022 – Software Technology, LLC is excited to announce the release of Version 2022 of Tabs3 Software. This release features a fresh new installer experience and improved features like consolidated contacts that will keep your firm organized and productive.

“Version 2022 continues our ongoing commitment to provide features that help firms do more in less time. Streamlining future software updates is the goal of our installer update. And unifying contacts through all of our software with enhanced filtering and sorting will also save time. We strive to continually improve our products because every user deserves the best experience,” said Dan Berlin, President and CEO of Software Technology, LLC.

Version 2022 of Tabs3 Billing features a new QuickView enhancement to the Statement Manager for a quick way to see unpaid client invoices. List totals in Tabs3 Billing and PracticeMaster save time without the need to run reports, and users can also take advantage of personalized settings to view only the data that pertains to their clients.

Customized data entry list views for wide-screen monitors are an option now for Tabs3 Billing, Trust Accounting, and Accounts Payable users. And for Platinum Edition users, a new Exchange Connector synchronization option for firms using Microsoft 365 helps users seamlessly sync their PracticeMaster calendar with Outlook.

With over forty years of experience in the legal industry, Tabs3 Software has a rich feature set. Our team members listen to and understand the needs of successful law firms, and we will continue to enhance our suite of products to focus on the needs of our clients.
